

UKRAINIAN DUAL-USE TECHNOLOGY CLUSTER (UADUT CLUSTER)

Building Ukraine's defence and dual-use technology ecosystem

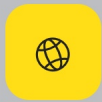

From Ukrainian manufacturers to global partnerships

UKRAINIAN
DUAL-USE
TECHNOLOGY
CLUSTER

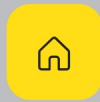

≡ Why now

Ukraine is the world's only combat testing ground for defence technologies. Those who integrate into this ecosystem now gain access to proven solutions and partnerships for years to come.

Global market access

Taking Ukrainian solutions abroad and bringing foreign players into the ecosystem.

Engagement with the state

Direct communication with the MoD, NSDC, SSEC and other relevant authorities.

Securing funding

Grants, consortia and access to EDF, Horizon Europe, NATO DIANA, EUDIS.

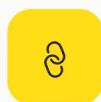

Investor and customer trust

A vetted, structured ecosystem instead of scattered contacts.

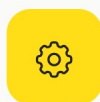

≡ What the cluster is

UADUT CLUSTER is a development platform for Ukraine's defence and dual-use companies. We bring together manufacturers, the state, international partners, investors and technology ecosystems.

Dynamic ecosystem

The entire innovation chain – from idea to production and distribution of finished products.

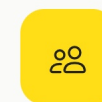

Chain optimisation

Improving production chains, fostering innovative growth and international cooperation.

Resource consolidation

Pooling resources and information for the most efficient use.

Member cooperation

Shared access to knowledge, resources and markets to deliver innovative projects.

≡ We are building an ecosystem

UADUT CLUSTER

100+

resident
companies

13+

foreign member
companies

12

technology areas

Ukrainian Cluster Alliance

40+

clusters in
the alliance

3,000+

SMEs from
all regions

5–6

dual-use clusters,
including UADUT

FEU Defence

700+

defence
enterprises

380+

tech companies

20+

sectoral
associations

≡ The cluster in numbers

100+

member companies of
UADUT CLUSTER

700+

defence enterprises via
FEU Defence

13+

international companies in
the ecosystem

15+

countries with cluster
representatives

40+

clusters in the UCA

39

industry events in 2025

200+

defence company
requests processed

20+

business missions in Europe,
North America, Asia

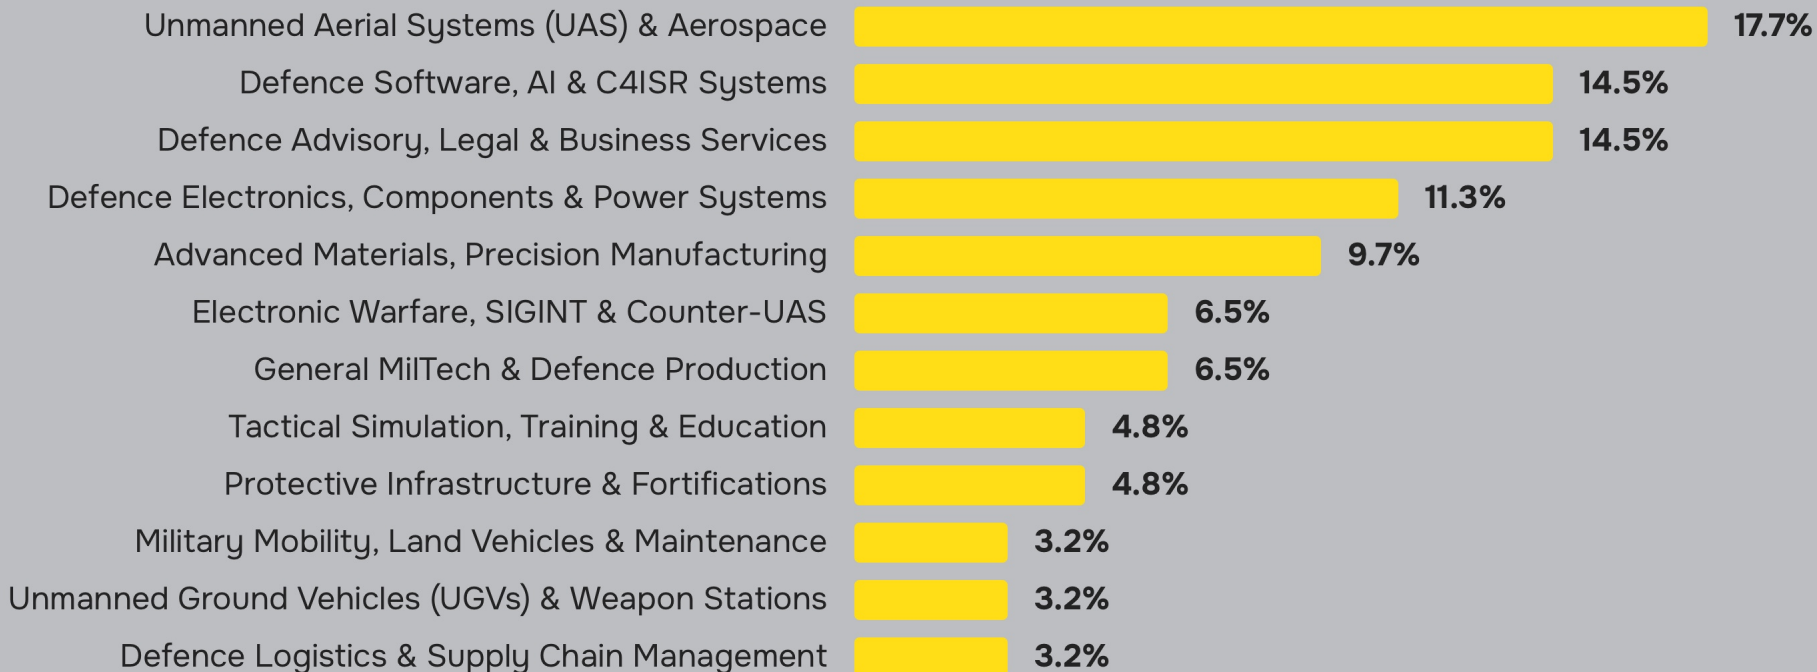

3

proposed amendments to
defence legislation

≡ Domains and areas

Member companies of the cluster by technology area.

≡ What a company gets

One more team on your side that helps with:

GR

Support in dealing with state bodies: MoD, Ministry of Digital Transformation, Ministry of Economy, SSEC.

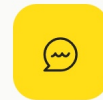

Export

Entering international markets through business missions, B2B and industry forums.

Funding

Access to grants and international programmes: EDF, Horizon Europe, NATO DIANA, EUDIS.

Promotion

Promoting the company in Ukraine and abroad: catalogue, delegations, LinkedIn.

Partnerships

Finding partners, integrators and customers in 15+ countries.

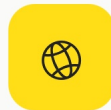

≡ Cluster assets

The tools the cluster uses to strengthen its members.

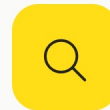

Investment Committee

Finding investment and investors, Deal Ready Invest.

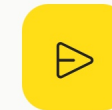

Export Support Centre

Support for exports and foreign market entry.

Trade Hub

Sourcing offers and handling requests.

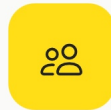

Deal Ready

International business development.

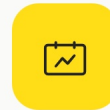

Testing and validation

Proof of Concept (PoC) and Proof of Work (PoW).

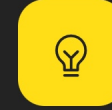

Exhibitions and business missions

Participation in international exhibitions and business missions.

Analytics and scouting

Analytics, scouting of projects and companies.

Grant office

We prepare and submit applications to grant programmes.

≡ GR: working with the state

Defence Day

monthly industry meeting format

Webinars & workshops

on topical issues, including exports

One-off events

forums, business missions, industry events

≡ How we work

A member's path: from the first conversation to commercial projects.

1

Online interview

We map the member's challenges and priorities online.

2

Joining the cluster

The member becomes part of the cluster ecosystem.

3

Support within the cluster

Partner search and action plan, roadmap, ecosystem navigation and access, official letters.

4

Project track

Optional: commercial support via the operator UADUT INNOVATION or partners – legal and consulting services.

≡ Value for every partner

Ukrainian companies

- GR and industry advocacy
- Market entry via ambassadors
- Services: Legal, HR, Trade, Grant Office

Foreign companies

- Access to battle-proven technologies
- Joint production
- Localisation and R&D savings

Foreign associations

- Cluster-to-cluster partnership
- Deal flow exchange and joint programmes
- Access to EDA, DIANA, Horizon Europe

Investors & donors

- Portfolio with concrete ROI
- Transparent tranches and budgets
- Measurable use of funds
